A wide range of new paper formats for different applications

The Mitsubishi Electric photo printers use dye-sublimation technology for photographic printing. The overcoat which is also on the ink ribbon protects the print from discoloration from UV, light and the air making the prints water-resistant.

The size of the ink sheet maximize the format of the print. Paper with sheets of 15x20 cm / 6x8" can for example also print 2 photos of 10x15 / 4x6", amazing photo Strips (15x5cm/ 2x6"), fancy Square Photos (15x15cm/6x6") or outstanding Panoramic photos (15x36cm / 6x14" - 15x51cm / 6x20") .

Special media
